

Materials:

- Metal Parts: Stainless Steel
- Resilient Element: VHDS Silicone

Note: Fluorosilicone is also available

Operating Temperature:

- -60°F to 300°F

Natural Frequency:

- 185 to 230 Hz

Transmissibility:

- 3.5 Max

Maximum Input at Resonance:

- 3 g's

Weight:

- 0.20 oz

Maximum Rated Load:

- 5.0 lbs

Part Number	Max Static Load (lbs.)	Max Transmissibility	Axial Natural Frequency	Dynamic Axial Spring Rate
MM24-S01	5	3.5	185	17000
MM24-S02	5	3.5	210	23000
MM24-S03	5	3.5	230	27000
